

BUILD VIDEO SCRIPT

Karel Tutsu

n01147386

#1 Opening Screen

Duration: 2 seconds

Project Title

My Name

#2 showing off unassembled parts

Duration: 7 seconds

Voice over, naming each item, I will also add visual text on the video screen

“Magnetic Contact Switches, Raspberry Pi, Wires etc.”

#3 assembling parts together

Duration: 7 seconds

Showing how to assemble, probably fast forwarding (speed play)

#4 Power up

Duration: 4 seconds

Turning RPI on, starting python script

#5 Application Demo

Duration: 10 seconds

Showing door movement and computer screen in parallel to make my case.

TOTAL TIME : 30 seconds

I may add or subtract a few seconds here and there if I find necessary, this script is just a rough draft.
